

Essex Rangers Youth Football Club

Club Management Software

For the 21-22 season the club will be utilising the club management software Spond to communicate, mark attendance and notify upcoming games and events throughout the season.

Spond is a mobile application that is compatible with iPhone and Android mobile devices and is an all-in-one platform that makes it easier for Parents, Managers and Coaches. No longer will the club have to send WhatsApp messages or emails to communicate with parents as Spond takes care of it all.

All parents would need to do is accept the invitation that comes through via email, download Spond on your device's app store and then parents, managers and coaches can then communicate through the app.

Spond will:

- Allow all communication to be run through the app
- Allow parents to notify managers/coaches of their availability for games and training
- Pay registration fees through the app
- Get instant notifications for Games, Training and reminders for Training money monthly requests

Spond is fully GDPR compliant, and your data will not be sold on to other third parties. Essex Rangers and our training provider (Soccerkids) will not disclose your data to anyone and your data will only be used to communicate with you regarding your membership to Essex Rangers, training information, fees and payment requests, upcoming fixtures and training & any events that Essex Rangers YFC may hold during the season.
